What will you do
with your happy
space?

Prices available upon request

Gazebos
and
Planters.

Let us install your build for you.....

(Ask about our old shed removal service)

KEY POINTS FROM OUR INSTALLATION TERMS & CONDITIONS

(A full version can be found at www.longeatonsheds.co.uk or ask a member of staff for a copy)

Free delivery is only available within a radius of 15 miles of Long Eaton. A small, pre arranged charge will be made dependant on distance outside this area.

Free installation is only available if there is clear access to the point of installation without using a neighbours garden for access or navigating around fixed obstructions. A small, pre arranged charge will be made dependant on the level of access issue.

We must also be given prior notice of any height restrictions, sharp turns, or overhanging trees or bushes that our installation team may have to work around to access where you want your build positioning.

There should be a 6 inch clearance around the roof area for both our installation and your maintenance purposes.

Should you require your existing shed dismantling and removing, any electricity supply to the shed should be removed (and not powered if the supply is in our working area) prior to our arrival.

Please inform us of any concerns regarding these points as we can usually perform a site visit free of charge prior to installation to check over and hopefully solve any problems.

ORDERING

Either complete our online enquiry form at www.longeatonshedsandsummerhouses.co.uk, email us, give us a call, or come and see us at our premises*

***Note - we do not have a showroom**

Here's a few things to consider when ordering....

Roof

There are two types of roof designs used for sheds.

An apex roof has the traditional two sloping panels coming to a point in the centre. This style offers maximum headroom.

The pent roof slopes at a customisable angle from back to front and is recommended for use in tight spaces

Cladding

The standard cladding that we use (the shed panel composite) is tongue and groove. We can also provide a loglap cladding which gives the traditional log cabin appearance. Let us know if you require your shed to come to you treated or not.

Windows

Your shed will come with up to two windows within the price quoted. Extra windows are available to order. Our standard windows are non opening but we can supply opening windows for you too.

Have a think where you would like these positioning.

Doors

The door is usually positioned at the narrow front end of a shed. This is totally flexible however. The choice is yours.
